VISOGLIDE PLUS

SLIDING PATIO DOORS

Space saving easy access to the outdoors with the light, airy advantage of larger glazed areas.

Visoglide Plus combines the visual benefits of large picture windows with the ability to open up a wide access way between internal and external spaces, the compact parallel stacking of the doors saves on space, offering a truly unique solution.

The all-aluminium Visoglide Plus system offers a contemporary look with a range of finish and hardware options to suit all tastes. This class leading system is great looking, strong, high-quality and has outstanding thermal performance.

These key features coupled with our state-of-the-art CNC manufacturing and a 10-year warranty on the paint finish makes Visoglide the best sliding door solution for your project.

Benefits:

- Large high strength aluminium doors allow maximised glass areas
- Panels stack flush in a compact manner when open to maximise space
- Slim sightlines with less visible frame than other door options
- Thermally broken for outstanding thermal performance
- Range of colours and hardware options available to suit every home
- Double track with two, three and four sash options
- 6.4m x 2.5m possible in a 2-pane configuration
- Precision CNC manufactured doors are delivered factory pre-assembled for less fuss on site
- 10-year warranty on paint finish

SLIDING PATIO DOORS
